Use forecast for the best fishing days and be well-prepared for any conditions.

### **Fishing Calendar Information**

Display sunrise and sunset times, moon phases and day length on a calendar. Add notes about catches for any day.

**FISHING DELUXE**

# Best Fishing Time

## Best Fishing Days

Swipe the menu on the bottom and tap on *Calendar* bubble.

The app shows a forecast for the best fishing time on a calendar. The more green bars a day has, the better it is for a fishing success.

You can tap on Sun icons to display sunset and sunrise times for each day. An icon with a clock will show the duration of daylight.

## Best Fishing Times

Tap on *Main* bubble in the menu. A time dial will have green and orange intervals. They show daily forecast for the best fishing time. Green intervals and a two fish icon show best fishing times and orange ones display just good times.

The best fishing times

Good fishing times

## Best Fishing Spots and Time Graph

### Best Fishing Time Graph

If you want to see a continuous time plot that shows great fishing times, tap on *Diagram* bubble in the menu.

The higher the plot, the more likely it is to catch a lot of fish. You can also swipe the plot left and right to see it for other days.

This screen also show some additional information: sunrise, sunset, moonrise, moonset, daylight length and a percent of visible Moon.

### Favorite Fishing Spots

You can save your favorite locations for future hunting or fishing trips.

Tap on the *Map*, and then tap on *Place* button. Double tap on the map to create a new fishing spot. You can add a comment, weather condition and a few pictures of your catches to each fishing spot.

## Fish Catches and Location

### Location

The app automatically determines your current position using the built-in GPS function of your device, and allows you to visually confirm your location on the map.

You can also manually enter your location on the map: tap on the top right box with the address and position and adjust the map for your current location.

### Fish Catches

Take some pictures of your catches and store them along with your fishing spot and weather conditions. Share fish catches with your friends over email and social networks.

## Settings and Weather

### Weather

Stay abreast of the current weather conditions and a four-day weather forecast for your location.

The weather data include current conditions, temperature, wind speed and its direction, barometric pressure, humidity and cloudiness.

To get more accurate forecast for a specific time for the current day, drag the horizontal slider above the weather data and set the time for the forecast.

### Settings

The application can be customized with different settings: sound, 24 hour format, UTC time offset, metric or imperial systems and more.

If you change the language on your phone, the app automatically updates its languages as well.

The app supports: Arabic, Bokmål, Norwegian, Danish, Dutch, Finnish, French, German, Greek, Indonesian, Italian, Japanese, Korean, Polish, Portuguese, Romanian, Russian, Simplified Chinese, Spanish, Swedish, Traditional Chinese, Turkish.

## FAQ: Frequently Asked Questions

### What does green icon with two fish mean?

Green icon with two fish shows the best fishing times. Orange icon and time intervals display just good times.

The best fishing times

Good fishing times

### How can I change the app language?

Go to the settings of your device: **Settings** -> **General** -> **Languages & Region** and change the language on your device. The app automatically updates its languages as well.

### What languages are supported?

The app supports: Arabic, Bokmål, Norwegian, Danish, Dutch, Finnish, French, German, Greek, Indonesian, Italian, Japanese, Korean, Polish, Portuguese, Romanian, Russian, Simplified Chinese, Spanish, Swedish, Traditional Chinese, Turkish.

### How can I change the location?

Tap on the address and location box on the top right and select a new location on the map.

## **FAQ: Frequently Asked Questions**

### **Can I save more than one photo for a fishing spot on the map?**

To save a catch photo, tap on *My Fish* bubble. Create a new catch record using (+) button and tap on the green camera icon. The photo will appear instead of the icon. Tap on the photo and add another picture to the same fishing spot record.

### **How can I view all photos associated with a fishing spot?**

Tap on the photo in the fishing spot record.

### **Does the application require Internet connection to calculate best fishing time?**

No, the main functions of the app work without Internet connection. If you would like to get the weather forecast, then you will have to make sure your device is connected to Internet.

### **Is it possible to get the weather forecast by hour?**

Yes, you can do it for the current date only. To get the forecast for a specific time drag the horizontal slider above the weather data to set forecast time.

### **How can I get fishing time forecast for the next month?**

Swipe the calendar up or use left and right orange arrow button on the top left.

### **Does the application work on iPhone and iPad?**

Yes, the app is universal – it work on both iPhone and iPad.

### **Can I display my fishing spots on the web as well?**

Yes, please visit our website [www.FishingDeluxe.com](http://www.FishingDeluxe.com)

### **How can I submit some ideas and suggestions on new app features?**

Please email us: [support@LifewareSolutions.com](mailto:support@LifewareSolutions.com)

## Reviews From People Who Used the App

### **Great fishing app**

by AppMasterSupreme

I love this fishing app! My wife goes with me fishing but after about 3 hours she has had her fill of it. With this fishing app though it tells me the best days and best times to go out fishing. It's great because now when she goes fishing I only go when this app tells me to so I can maximize my time out on the lake. It has worked every time so far.

### **Dad**

by EntoGuardian

As a husband, father of five, business owner and preacher I don't have time to grab my gear and go get skunked too often. Although I love to fish and when I don't catch fish I still have a good time I love to catch fish even more. This app has helped me do just that on many many occasions. This app has allowed me to select the best times to take my girls out fishing so that we have a much better chance of being successful and catching fish! Very thankful for the quality and ease of use of this app.

### **The real deal not fishing, CATCHING!**

by Tenstacks

This fishing (catching) app stand alone at the top. I use it for freshwater fishing and it's right on point with the best bite times. The last time I used it I couldn't bait my hook fast enough to keep up. This app should come with a warning though I think, stating fisherman should have sharp hooks, new fishing line and a strong rod in order to be efficient when using this app. Don't let the biggest one catch you off guard you catch them.
